

The manuscript **Green Synthesis and Antibacterial Activity of Cobalt Nanoparticle from *Calotropis gigantea***, by **Syed Sauban Ghani and Farheen Ghani**, has been withdrawn from the archives of the *Journal of the Mexican Chemical Society (J. Mex. Chem. Soc.)* by the Editorial Board after been informed by a peer journal of chemistry that they received almost simultaneously the submission of this work.

This simultaneous submission is an unethical conduct on behalf of the authors which is completely unacceptable according to the Ethical Guidelines of the *Journal of the Mexican Society (J. Mex. Chem. Soc.)*.
